

PHOENIX RIFLE CLUB ELECTS NEW OFFICERS

Plans for Big Membership go With Annual Meeting—Boide Returned to Chair—Mila Rule Helps Club

A big membership to make a successful association, and the election of a board of officers to make it same true—happened last night at the meeting of the Phoenix Rifle club at the armory. Dr. Lorenzo Boide was returned to the chair.

The lively instituted rule of National Guardsmen against taking rifles out except under the eye of an officer, will, it is said, help to boost the membership of the Phoenix and other rifle clubs, for many of the shooters do not want to have their practices only when it is convenient for the whole squad to go to the range. The club must stand the assault of twenty-men teams in other clubs, if it is to hold the championship it won last season along the Pacific coast.

Tom Edens was made vice president, Ray DeMund treasurer and Jackson McRee secretary and executive officer.

CALENDAR CALLED IN SUPREME COURT

Following the calling of the calendar of the supreme court yesterday morning, four cases were argued, and one action reversed and remanded for a new trial. The case reversed was that of the White Sewing Machine company vs. J. Taylor Bradley, an appeal from the superior court of Cochise county.

Motion to set aside stipulation in Criminal Case No. 365, The State of Arizona vs. R. L. Phynan, was argued, the court withholding judgment for the present. The request of Owen T. Rouse, appellant in the action brought against Catherine Bolen and Frederick C. Bolen for an extension of time for filing brief was denied, and the case set for hearing January 22. Motion for diminution of record in the case of Philip M. Sharples vs. W. B. Duvall was argued and appellant ordered to take up the matter of diminution with the lower court.

The following cases were placed on the calendar:

Jan. 14, No. 1444, Town of Tempe appellant, vs. C. A. Corbett, appellee.

Jan. 15, No. 1287, Chas. Davis, appellant, vs. W. A. Tway, appellee.

CENTRAL ARIZONA MAP IN WONDER OF DETAIL

Huge Map of Maricopa and Parts of Surrounding Counties Carries Great Mass of Information.

Few newspapers issued now-adays on such a pretentious scale as the big "24-sheet poster" sized map of Central Arizona, just completed by Engineer Fred Holmquist, formerly city engineer of Phoenix. Copies of the Holmquist map have been commented upon by mappists as one of the most complete bits of work they have ever seen.

The drawing covers all of Maricopa county, and parts of Pinal, Gila, Yavapai, Coconino and Navajo. It is really a map of Central Arizona. Every feature is reproduced on the map. The topography is indicated by hachures—that being the only detail not worked out to the limit. Mr. Holmquist will shortly make a special trip to the Verde country to get data for a revision of the map around the site of the Horseshoe dam. He will also change the map to include elevation figures on all the big mountain peaks.

sighted over La Martin. Both turned northward again when they saw French aeroplanes driving in their direction. The presence of hostile aeroplanes in this vicinity is regarded as interesting, as it is considered likely that it was the intention of the German airman to attack Paris and London simultaneously.

Yesterday's dispatches stated that sixteen German aircraft were sighted over the English Channel headed for London, but that they turned back.

According to French dispatches, fifty bombs were dropped on Dunkirk Sunday by aeroplanes cruising over the town from eleven o'clock until nearly four o'clock in the afternoon. Two of the raiders were brought to earth. Six were killed in Dunkirk and the suburb Molo. It is reported that several were killed at St. Pol and Adinkerke, but this is not confirmed.

Aeroplanes came from all directions towards Dunkirk and were met by heavy abramel fire. In spite of the long ordeal the populace displayed no panic. The bombs included some of an incendiary type, but little material damage was done. It appeared that the absence of a large number of French aeroplanes from Dunkirk has been known to the Germans.

As the French officials have made no confirmation or denial of the report from Berlin that the French dreadnaught Courbet was torpedoed and sunk by the Austrian submarine No. 12, near Malta. The German report said that the French pretend the dread-
